### Training

---

#### Java Full Stack Developer Training

May 2025 – Nov 2025

*Naresh IT, Hyderabad (On-site)*

*Technologies: Java, Spring Boot, React, SQL, Oracle*

- Completed intensive training in Core Java, OOPs, Collections, Multithreading, JDBC, Spring Boot, REST APIs, and React.
- Gained deep understanding of Java execution flow, memory management, and JVM concepts.
- Developed real-world full stack applications with focus on performance, security, and clean code practices.

### Projects

---

#### Cab Booking System | *Java, Spring Boot, Html, CSS, SQL*

- Developed a full stack cab booking platform with user authentication and role-based access using JWT.
- Implemented Kafka for asynchronous ride booking and notification processing.
- Used Redis for caching frequently accessed data to improve system performance.
- Designed REST APIs and documented them using Swagger.

#### House Buying Website | *Java, Spring Boot, React, SQL, Oracle*

Jan 2025 – Feb 2025

- Built a property listing platform with secure login and role-based authorization.
- Implemented advanced property search filters and optimized SQL queries.
- Developed backend services using Spring Boot and JPA with clean layered architecture.

### Awards & Certifications

---

- **Java Full Stack Development – Naresh IT (2025):** Core Java, Spring Boot, REST APIs, React, SQL, Oracle.
- **Java Programming – HackerRank (2025):** Problem solving and coding challenges.
- **SQL (Basic) – HackerRank (2024):** Queries, joins, subqueries, aggregations.
